In this post, I will be showing you how to use Photoshop tools to create your own memes. The

---

concept is simple - pick an image, create a meme from it and share it on Discord! Before starting, you'll need to make sure you have installed the latest version of Photoshop on your computer. I am using the latest version for this tutorial. Let's start creating our first meme! Create a new document Start by opening Photoshop and pressing P

---

to create a new document. I am going to use a picture of the traditional Japanese rice cake called “mochi”, as you can see from the picture below. I have not named my document, so I have given it the “Untitled” name. Step 1 – Select the Brush Tool Draw your brush in the new document window and set the brush to a circular shape. Once again, I will

---

be using a brush of size 2 with a hardness of 0. You can see the brush in the image below: Step 2 - Create the first stroke Select the Brush tool again and click and drag in the Photoshop window until you have a stroke. Then set the brush to the color yellow. Step 3 - Create the second stroke Continue to create two more strokes of different colors, setting the

---

brush size to 2 and hardness to 0. Step 4 – Create a third stroke Now I will be creating a fourth stroke. The stroke will be created using the Pen tool instead. Start by selecting the Pen tool (that is the triangular shaped icon on the top left of the window). Click and drag the pen to create the stroke. Step 5 – Create the fourth stroke Continue to create more

---

strokes with the pen tool and set them to the color “yellow”. Step 6 – Finally, we will use the Brush Tool Let’s finish our meme. Select the Brush tool again and set it to a size of 1. Step 7 – Draw a circle stroke Click inside the artboard so you only have your brush tool selected. Draw a large circle on the artboard by clicking and holding the left mouse

button. Step 8 - Save your meme! Save your meme with a new name by selecting File > Save. Step 9 - Edit your meme Now

people do get hooks up. These seem to be some of the hard to find ones. Prolly be a dodge and switch but I would like to see one in hand. I too have looked for a long time but it seems others have had more luck. I have had 2 B+ and 1 D+ pass through. The downside is they are kinda rare so I don't think I'd get too excited over one. My

cousin in Northern S. Cal got himself a L100C. They are fairly rare and they do have that neat little U-bolt. He is selling his 89L. So if anyone is interested in one let me know. I haven't seen a U-bolt or L100C in years... If I had one, I would be selling it for sure Hmm, I would like to see a hookup for the 20... I still have a 2001. It's a beast!
