
Assassin's Creed 3 Isarcextract Isdone.dll

i received the following error while installing a game: "c:\program files\steam\steamapps\common\assassin's creed ii\assassin's creed ii.exe is not a valid game. please install a valid copy of the game from the steam app store." i deleted the c:\program files\steam\steamapps\common\assassin's creed ii folder and reinstalled the game. the problem is still the same. i have tried installing the game on a different computer and it still gave the same error. i have a folder called "steamapps\mmon" with a bunch of different games in it, and the main one in it is "assassin's creed origins". when i try to start it, i get this error message: "assassin's creed origins.exe is not a valid game. please install a valid copy of the game from the steam app store." i tried installing it again, and it worked fine. i have been getting this error while trying to install a game: assassin's creed origins.exe is not a valid game. please install a valid copy of the game from the steam app store. i uninstalled the game and tried again, but i still get the same error. i also tried installing the game again, but i still get the same error. i looked in the c:\program files\steam\steamapps\common\assassin's creed origins folder, and i found two folders: "assassin's creed origins_data", and "assassin's creed origins_update". i tried deleting the entire "assassin's creed origins_update" folder, but when i tried to install the game again, i still got the same error. i'm not sure what to do now. assassin's creed valhalla - isdone.dll and unarc.dll error. run from the start menu, then go to settings, then security and privacy, and then system. then go to programs and features and then the other windows list. then go to program and features and look for program that says isarc extract and uninstall it.
