Gossip Which app? Which dock/desktop? Duckie Free Carrie Diaries Folder Icon Description Carrie Diaries Folder Icon Installing this pack is simple - just extract all the folders from the archive and drop the contents of the them into the corresponding directory of your choosing in the dock or desktop. For instance, to add a new icon to the desktop of your choice you should drop the Carrie_Diaries_Folder_Icon.dmg file into the root of the desktop's directory. Make sure that you have the appropriate permissions to modify the folder of your desktop! You might also want to add an icon to your dock, just drop the Carrie_Diaries_Folder_Icon.dmg file into the folder where the icons for your programs are located. For example, if you usually place your icons in /Applications/ then you can drop the Carrie_Diaries_Folder_Icon.dmg file into the same folder. Be careful - if you add the icons to your dock and then remove them, the corresponding icon files will remain in the dock until you remove them yourself. You might want to place the icons in a different folder from your dock apps. For example, if you add the icons to the desktop of your choice you might find that it would be cleaner to place the icons in a "Carrie Diaries" folder instead. In this case you should drop the Carrie_Diaries_Folder_Icon.dmg file into the /Carrie Diaries/ folder. The Carrie Diaries folder will be automatically created if it does not exist already. Use the search function to find all the icons you need in this pack. When you install the pack a small folder called Carrie Diaries Folder Icon (or some such name) will be created into which all the files for the icons are located. You can find the icons in the root of this folder if you decide to add them to the desktop of your choice. FAQ Can I replace icons for my entire Applications folder? For some reason the pack only contains icons for the dock applications of the two programs provided. Can I use icons from the pack in my programs? Sure - just drop the appropriate icon into the icon slots of your programs. Can I use this pack with my applications that use the icon format that the Pack's icon files are for?

- If you have an issue with the icon being not displayed correctly, then this icon may just solve your problem.
- Comes with two icons sizes: 32x32 and 48x48. • Each icon is kept in 4 different resolutions: 16x16, 32x32, 48x48 and 128x128 • All icons are supplied in PNG format. • Icons are included in four different colors: green, blue, orange and white. • A.I.O.K. is not a new or upcoming program. It is a tool that has been used for a long time and only recently has become a popular open source tool for crafting icon packs. • This package only includes icons, not A.I.O.K. files. • 2 in 1 pack: you can use all icons or just the 2 icons provided.
- Compatible with Mavericks, Mountain Lion, Lion and Snow Leopard. • For more info, please visit the project page: • Made with Author (Adriano Konifaty). V3.0.0 Icon Pack for Mac OS X By Adriano Konifaty Version 3.0.0 Many icons have been updated, and the pack is now compatible with more versions of OS X. V2.0.0 Icon Pack for Mac OS X By Adriano Konifaty Version 2.0.0 This is a completely new Icon pack that includes many new icons, and also some old ones. This Icon Pack also has a "Folder" folder, that includes all the icons that can be used for the dock application icons. This Icon Pack can now be used with Mavericks (10.9), Mountain Lion (10.8), Lion (10.7) and Snow Leopard (10.6). This pack also has a "Folder" folder, that includes all the icons that can be used for the dock application icons. Icon Pack for Mac OS X By Adriano Konifaty Version 1.0.0 After a long time away from coding, I decided to update the original icon pack, and it has been updated to work with Lion (10.7), Mountain Lion (10.8) and Snow Leopard (10.6). This Icon Pack can now be used with Mavericks (10.2edc1e01e8

Theme Catalog is a simple application that provides you with an easy to use interface to change the appearance of your Mac desktop. What's New in the?

- A large collection of icons in different sizes, shapes and colors - Each icon has a transparent background and uses the PNG format. - Every icon is packed in one ZIP file and there is a README file with instructions on how to extract them. - This pack contains more than two hundred icons, but the image dimensions are only about 80×80 pixels. - Make sure you install the Graphics Magick version that's required by the icon pack. - The icons are available in three different flavors: 16×16, 24×24 and 32×32. Resources & Libraries - The icons can be used for any of the following applications: - Dock, Dashboard, Launchpad and Coverflow applications for Mac - Synch, Task, Finder and Go applications for Windows - Notification Center and Dashboard applications for iOS - Launch and Desktop applications for Android - These icons can be used to replace the default icons from apps you already have installed. - If you have any questions, feel free to ask on the app's Discord server. Developers Kit - There are more than fifty sample files, each containing one of the icons from the pack. - There are nine other icon packs that are based on the same principle, but use different icon themes. - You can use them for inspiration when developing your own icons. Read Me - The README file contains information on how to install the pack, as well as the icons' appearance and the icons' usage. - It also contains a small tutorial on how to create your own dock. - There is a small sample script that you can use to quickly add icons to your dock. Screenshot(s) - You can see a preview of all the icons in the list below. - You can also see which icons are packed in the icon pack. NOTE: If you downloaded the icon pack's ZIP file, make sure to extract the icons and not the ZIP file. The icon pack contains an icon.zip file that will get opened in the Finder. It is not a folder that you need to extract. App Screenshots Free Online Reset your
